

INNOVATIVE RADIOELECTRONICS CONDUCTED A TWO DAYS' INTENSIVE EDUCATIONAL WORKSHOP

On August 17 and 18, 2018 INRADEL CAMP forum was held, which is a two-day intensive workshop for start-ups. This event was the final one in the educational program of the fifth season of the Innovative Radioelectronics contest: an eight-modules video course and a series of excursions to the leading enterprises of the electronic industry were already held before.

On the first day of INRADEL CAMP the Talks about the Future discussion session was held for discussing prospects for technological start-ups in the era of innovations race, digital transformation problems and information security in a hyper-connected world. The participants of the forum were provided with a unique opportunity to meet with experts of the Russian and global IT market: CROC, Avast, IRELA and Orange representatives delivered lectures to the guests.

The second day of INRADEL CAMP forum was dedicated to development of hands-on skills required for successful business of entrepreneurs specializing in technologies. A special attention was attached to refinement of skills in presentation of projects, to development of design thinking, review of specifics of launching innovative products in the market and to typical errors made in this connection, as well as to the possibilities available for interaction with major corporations. On the second day of the forum representatives from Wonderfull, esPrezo, EyeMove and MD Information Systems delivered their expert reports.

For more information about the educational intensive workshop and to download the lectures' notes, visit the company website: inradel.ru.

About the contest

Innovative Radioelectronics is an annual international contest of R&D and engineering works and it has been held since 2013 under support of the Ministry of Industry and Trade of the Russian Federation for the purpose of forming a strategic pool of management and engineering personnel for radioelectronics industry from among young and talented students, post-graduate students and researchers engaged in applied research in scientific, technical and economic fields. <http://inradel.ru/>
